|------------|-------------------|-------------|--------------------|
| Often<br>1 | Occasionally<br>2 | Seldom<br>3 | Rarely/ Never<br>4 |
|------------|-------------------|-------------|--------------------|

## **Instructions**

Circle the answer that is most appropriate. When you have finished all the self-assessment, total the number that you have circled. If your total is less than 15, keep doing what you are doing with your grandchild(ren). It is important for faith formation. If your total is 15-20, note what things you could do to improve. If your total is more than 20, this is one of the key faith practices that you should find ways to practice more.
